

**OS3 - ASSP - ABDOMINAL**

**CUT SUIT - ASSP - LVSPKDILBW**

**ADVANCED SURGICAL SKILLS PACKAGE™ (ASSP)**

*Designed by surgeons, for surgeons, to teach surgeons.*

The Abdominal and Thoracic ASSPs drop into the OS3 / patented Cut Suit & replicate various trauma and pathology scenarios, so realistic that participants willingly suspend disbelief that they are not working on a real person. Unlike surgery on a real patient, training timeouts can be taken for instruction, education, and debriefs where authentic learning occurs in simulation and can restart.

**OS3 - ASSP CONFIGURATION**
